QUICK SHIP

Creating Infinite Designs with Speed and Flexibility

Milliken™
Ontera™

One of the largest Quick Ship programs in the business.

Inspiration can strike fast... and deadlines even faster!

Milliken-Ontera's Quick Ship program is one of the largest in Australia offering fast delivery and flexible solutions of your favourite products to create your design interior intent, every time. A total of 351 unique SKU's, our program offers inspirational options, allowing you to browse by colour and style, with a 5m^2 minimum order. Available in tiles and planks, the Milliken-Ontera Quick Ship program also provides endless possibilities across all price points for accelerated project lead times, guaranteeing hassle-free delivery.

Beyond Chroma | Chroma in Chalk (CMA144) and Autumn (CMA65-134) | Monolithic Installation

- **WELLBAC™ (PVC-FREE)**
- **STAINSMART®**
- **15-YEAR WARRANTY**
- **MOISTURE MANAGEMENT (SRS)**
- **SUSTAINABILITY**
- **SIT-TO-STAND**

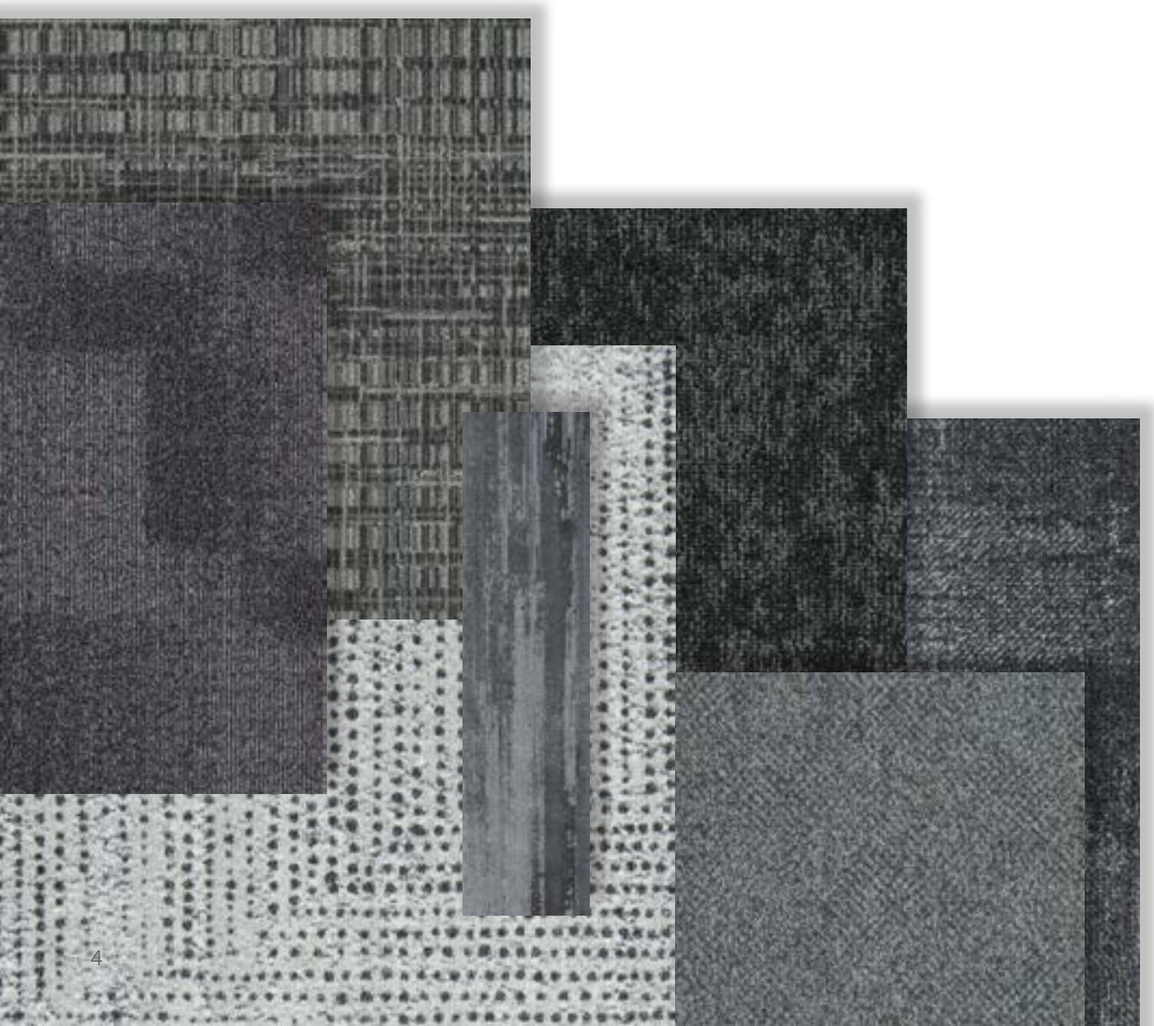
Colour Compositions | Pyroxene (CCM 118) and Pyroxene Chlorite (CCM118-162) | Ashlar (Vertical) Installation

Greys are the perfect neutral.

Browse our collections of distinct and versatile monochromes.

Featuring soft and contrasting grey hues, charcoal and black, this colour family will transform and create a dramatic statement or complement a monochromatic interior space. Explore our warm and cool grey trends for the perfect neutral starting point.



Inspiration can strike fast...and deadlines even faster!

Milliken-Ontera's Quick Ship program offers fast delivery of your favourite products. We are proud to boast some of the fastest lead times in the industry ensuring you receive the products you need on time, every time with a 5m^2 minimum order. With multiple designs and colour options available within our Quick Ship service you'll never have to worry about delivery delays or extended lead times again.

Style Backed by Performance

Milliken-Ontera offers products and expertise in all areas of your commercial space, including tile and plank carpets. Create and simplify your flooring projects by working with a trusted partner that lets you focus on experiencing the flexible process and transforming your vision into a great space.

WELLBAC™ (PVC-FREE)

Environmentally sustainable and transparent with a hard back and two cushion back options. WellBAC™ backing solutions provide uncompromised performance for all your project needs. The WellBAC™ Non-Reactive Felt Layer is chemically inert and won't react to adhesive residue, reducing time and costs required for floor preparation. It also provides superior underfoot comfort while improving the carpet's durability and offering ergonomic, acoustic and environmental benefits.

STAINSMART®

StainSmart® a proprietary treatment applied to Milliken-Ontera carpets, designed with durable performance feature, provides unmatched protection for your carpet against penetrating stains and soil.

SUSTAINABILITY

Core to our culture, we embrace sustainability with practices such as product stewardship, third-party voluntary product labelling and certifications, and product lifecycle assessments. All of our manufacturing sites are certified to the highest global environmental standard - ISO 14001 and all of our products are certified to the Carpet Institute of Australia - Environmental Certification Scheme (ECS).

15-YEAR WARRANTY

Our products are backed by a 15-year commercial warranty, which ensures quality and provides peace of mind. Milliken-Ontera stands behind its products in the areas of Face Fibre Wear, Staining/Soiling Resistance, Colour Pattern Permanency, Delamination of Backing, Edge Ravel, Tuft Bind, Floor Compatibility, Antistatic, Flammability, Cushion Resiliency, Dimensional Stability, Floor Release, Moisture Resistance and ISO 9000 quality standards.

SIT-TO-STAND

Avoid the hassle and expense of using anti-fatigue mats under sit-to-stand workstations. Milliken-Ontera cushion backed carpet tiles and planks have ergonomics built directly into the carpet themselves, which can reduce muscle fatigue by 25% and heel impact loads by 30% - while lasting up to 50% longer than conventional carpet tiles.

MOISTURE MANAGEMENT (SRS)

Milliken-Ontera modular carpet is a moisture mitigation solution all by itself. Unlike with hard back products, water vapour has a way to escape from beneath Milliken-Ontera's WellBAC™ cushion backing. It travels freely through our WellBAC™ open-cell cushion, evaporating naturally through seams at the edges of each carpet tile. All modular carpet tiles come with a 15-year warranty against adhesive breakdown due to moisture vapour emissions.

ACOUSTIC VALUES

In open and loud spaces, with teams of people all talking at once, noise can be disturbing and frustrating. It can have a negative impact on concentration, memory, productivity, comprehension and lower morale. In such environments, the acoustic advantages of Milliken-Ontera cushion backed products are impressive and play a significant role in creating quieter, more productive spaces – absorbing 60% more noise and transmit 50% less noise than hardback carpet.

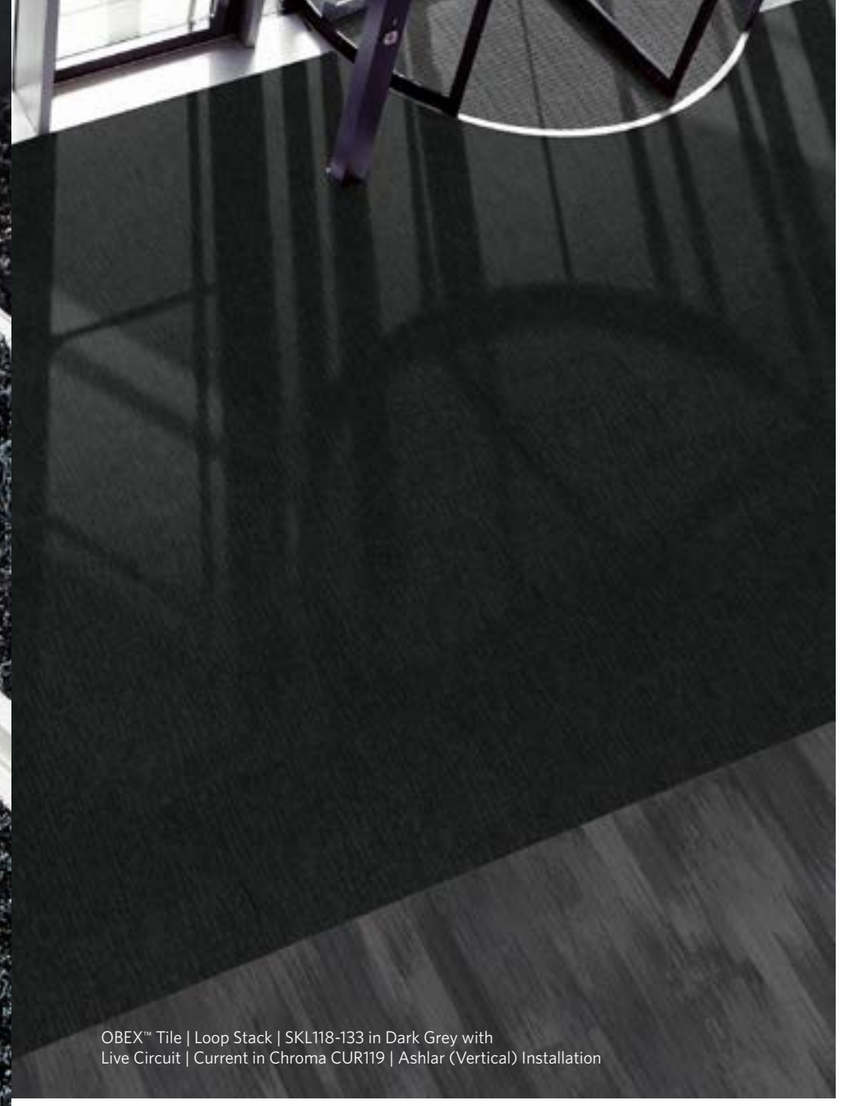
OBEX™ | Milliken™ Entrance Flooring

Flooring Innovation

Smarter, Better Entries

Rooted in the long history of Milliken™ innovation and reflecting the organisation's bold vision for healthy, efficient, and productive facilities, OBEX™ leads the way with proven options for the harshest conditions, without the unattractive, unsophisticated compromises typically associated with entries. By keeping out unwanted debris and moisture, OBEX™ Entrance Flooring protects spaces against slips and falls, unhealthy contaminants, and abrasive particles that can prematurely wear facility-wide flooring. From Grids, Tiles, and aluminum Bars to Mats and Rolls, Milliken's integrated OBEX™ system optimises safety, wellness, and design from the outside in.



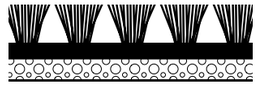
OBEX™ Tile | Loop Stack | SKL118-133 in Dark Grey with
Live Circuit | Current in Chroma CUR119 | Ashlar (Vertical) Installation

Materials

OBEX Cut: A hard-wearing combination of nylon and scarping monofilament fibres attracts moisture and traps dirt in an open cut-pile construction.

OBEX CutX: A more aggressive version of our Cut textile, CUTX contains extra monofilament fibres for successful removal of moisture, damaging particles and pollutants.

OBEX Loop: This resilient, solution-dyed textile with a loop-pile construction absorbs moisture while maintaining its appearance.



OBEX Mono: Strong monofilament fibres use superior brushing action to capture debris.

OBEX Vinyl: Low-maintenance, easy-to-clean and durable. Vinyl provides a first line of scraping defense against outside elements.

Protection that Leads the Way

Great architecture and design isn't just about managing all that goes into an effective, attractive space. It's also about what's intentionally kept out. That's why the Protective Flooring experts at Milliken™ created OBEX™, a comprehensive entrance system with a range of proven Forms and Materials. OBEX™ equips architects, engineers, and specifiers with all they need to create site-specific, high-performing entries, without compromising their project's overall design.

OBEX™ Grid

Designed especially for high-traffic areas, OBEX™ Grids provide lasting protection. Available in both open and closed constructions, Grids efficiently capture dirt and moisture from foot and rolled traffic entering the building. Grids are constructed with durable, easy-to-clean vinyl, and allow for OBEX™ material inserts.

SUSTAINABLE PROPERTIES OF OUR PRODUCTS

Sustainability is at the core of Milliken-Ontera's philosophy. We believe that a healthy enterprise and a healthy earth are vitally linked, and we hold ourselves accountable to the highest ethical standards.

The carpet collections in the Quick Ship program are manufactured with WellBAC™ (PVC-Free) hard and cushion backing and consists of up to 40% pre-consumer recycled content by total product weight.

All Milliken-Ontera carpet tiles and planks carry Environmental Product Declarations and Health Product Declarations, which contribute to LEED certification. Additionally, Milliken-Ontera carpets carry Declare® transparency labels and comply with the Red List Imperative of the Living Building Challenge™. All of our products are certified to the Carpet Institute of Australia - Environmental Certification Scheme (ECS).
